

G'D OUT? / CALL 911

Cannot wake / keeps passing out?
Slow, irregular, stopped or snoring/gurgling breaths?
Call 911. Never delay CPR for naloxone.

**UNRESPONSIVE +
ABNORMAL BREATHS**
CPR. Breaths if trained;
or keep pushing.

NORMAL BREATHS ONLY

Side; top knee bent.
Tilt head; mouth down.
Stay. Watch breathing.

G + alcohol, opioids, benzos or depressants: greater overdose risk.
Naloxone does not reverse G. Give if opioids possible / drug unknown.

**NO FOOD. NO WATER. NO MILK. NO MORE DRUGS.
NO FORCED VOMITING. NEVER LEAVE THEM ALONE.**
